The Old Ships.

of that paper writes:

swer the question. On the discovery of the gold in California, it will be remembered

Balem, but when lost, of Nantucket-

uguet, 1851, in a similar manner to the

Nantucket, of Nantucket. The whole af-

air was vividly noticed at the time by

the London Panch, in verse.

once of, twice a year a oulmary mania. He must cook; he will cook. He watcher "While the tonnage of our set-going ships has not increased, the number of them must have very much decreased when we consider the greater size of those boilt within the past thirty years. It is but few years since the largest thine in the mercantile matine did not exceed 600 tons burden, while at present the average of sea-going ships is probably near 1,000 tons. The Great R-public, of 3500 tons, was an exception. Then the large fleet of ateams ships have taken the place of the sailing-vessels, and seem to be fast driving these jewels from the coast. But the in-quiry, "Where do the old ships go to?" is an interesting out; and the writer has some means at his command to partially and the house; also, dish rage; he puts one of the house; also, dish rage; he puts one of the house; also, dish rage; he puts one of the house; also, dish rage; he puts one of "While the tonnage of our ret-going ships has not increased, the number of every door in the home, from cellar to garret. He turns the damper wrong. The stoves amokes the wrong way. He draws water in the wrong bucket to fill the tea-kettle. These things are terrible to mention, but they are often done in California. He throws potato and other vegetable pearings in the cleanest pail to can find. Wherever he walks and what are exulting from Sygian morances and ever he touches he leaves a "mus." He leaves knives, forks and spoons all over the house; also, dish rage; he puts one of these in his pocket. He coasse to be a rationsome means at his command to partially an-

hat an innumerable crowd of adventurer flicked to its shores hoping to wash out fortunes from the golden sands. Small, old and chesp ships were sought for, and, crowded with passengers, sailed for the blis-ful land. On arrival within the blis-ful land. On arrival within the Golden Gate, the ships were abandoned in baste by their passengers and orewater the mines; and the ships the later with converted into stores, piers and dwellings, come allowed to decay and wash to pieces about the river and bays, while a part were purchased by the Celestials and broken up for the metal that was in them. He crams several fistfulls into the teathe wood being sold to the citizens for fuel, while the metals were shipped to the Celestral Empire. Quite a number of these old palaces went in this manner under the writer's eyes. During the year 1850 more than a thousand ships were ob-served in the Bay of San Francisco, a large Among the interesting old samps was the Barclay, built in 1796, for William Botch & Sons, by George Claghorn—the ame who built the frigate Constitution, [Old Ironsides]. The Barclay was gallaut-

cut out of Callao, from under the gun if the Spanish fortifications, in 1813, by Commodore David Porter, then in the Joited States frigate E sex. with our forious Farragut, at that time a midebip an under his command. After an event ul career she was broken up at New Bedford in 1864 Also the ship Canada, fam-ous in her day, when in the Liverpool trade,making her passages from New York chaos, smoke, greese, soot, rags, and flour, trade, making her passages from New York in from thirteen to sixteen days, when our manded by Capt. Sath G. Macy, of Hudson, and delivering Gen. Jackson's mossages in Liverpool as promptly as the steamers do others in these days. This ship was suized by the Brezilian Governable of the stands, red-heated, ship was suized by the Brezilian Governable of the stands, red-heated, flustered, caught in the act, with a big ment, while ashore near Pernambuco, in appon in one hand, a tormentor in the other, a spot of black on his nose. The trying-pan is full of hot, amobing lard. It only a right to do it. It is your business stands there with his bask to the stove, and all over averaging feet. ment, while ashore near Pernambuco, in 1856, and was since paid for, every dollar Large numbers of noted old ships, when the requirements of commerce demanded those of larger size for transportation of cotton, grain and other merchandise, were

those of larger size for transportation of notion, grain and other merchandise, were transferred to the whaling businese, and have since laid their keels in some of the numerous groups of the Pacific seas, or bren orwhed in the ice of the Arctio fired or by the leviathan or the rest. Among these we have in mind the Boston Chica ship Hocque, long commanded by the gallant Jusiah Sturwis, of the tity, who foured a largely in the government rev. generat social Sturyle, of that city, who afterward, up stairs under the bed. How eane service, and died while on duty some the was carrying it up at the time. he was carrying it up at the time. Absent their savory haunts afar among the orange minded. He was looking for a clean proves and Moorisb ruins of Andaiuela. years ago. This ship was driven ashore and wrecked in the Okotak Sen in 1851. the Arch of Carlos III. or Salem, but when lost, or Nantucest-stove by a huge whale in the Pacific Ocean in Nov, 1820. Capt Pollard, who com manded her, sailed again in the Two Bro hers, and in less than five months she

whale breach out of the sea in the night store boiling—boiling piecemeal, boiling are habited in breeks, shirts, jickets, legarouse the deck, breaking in the decks and sinking the ship below the water in a few moments. The crew escaped in the boxts just as they came out of their borths, and were picked up by a concert. He stilled in aboat a week. It is his only back and decked with a bright ribbon or both the content of their back, glosey treeses thrown borths, and were picked up by a concert. the boats just as they came out of their berths, and were picked up by a consort ship, the Leo, and brought home. This is the only case of the kind we have any knowledge of in the experience of all our people for a period of 175 years. The ship Ann Alexander, of New Bedford, was destroyed on the coast of Peru, in

E-sex, and the crew taken off by the chip mines in the flush days of '49. There is a ship now sailing from Holland, built in 1568, when the Prince of Oranje was fighting Philip II of Spain, then at the zenith of his power. She was sailing to the Indies when the Hollanders sortanned thereaselves into the "Beggare of the Sea," and as privateeramen sarned a reputution which astonished the world This Dutch ship is called the Commissa ries des Koning con der Heine Ste psaced the Cape of thought of the Stave, and the stave of the Stave, for Holland, then 294 years and the members of the bar at Laucaster knew years of the that the form Batavia, for Holland, then 294 years of the members of the bar at Laucaster from Batavia, for Holland, then 294 years of the members of the bar at Laucaster from Batavia, for Holland, then 294 years of the members of the bar at Laucaster from Batavia, for Holland, then 294 years of the members of the bar at Laucaster from Batavia, for Holland, then the Boston of the Stave of Gen. Sherman's Early Love.

old A f-w numbers back, in the Boston loft no adequate provision for his large Davy Advertiser, is a notice that the whole-thip E-descent, (another of Stephen Girard's ships, built at Philadelphia in 1801) was then undergoing repairs at New Bedford. Her planking is being removed, the first time for seventy years. The live-oak timbers underneath are reported to be as sound as they were the day they were first put together Lite in the last century Mr. Samuel Parkman was closing up his E ist India to the widow; and on the same authority business in Baston, and offered his sheps are reported to be as cound as they were the day they were first put touether in the last century Mr. Samuel of Parkman was closing up his Eist India business in Buston, and offered his ships then employed to his old captain from there, who had long served him. They burchased the ships Cetterion, John Jay, Weymouth, and others. We had no more successful ships than these from our place, and after long service they were broken up at home." we have it that, after some consultation between the mother and the eldest si-ter "Camp," at that important period of hi life at play in a neighboring sandbank, was selected.

The next seven years passed in school-boy life in Lineaster. Young Sherman was fairly adopted into the Ewing family,

and he soon made his way to all thei hearts. He was cont to the English de A High-born English Woman with Admin English desires who Admin Conglish and the second will ge academy, where he fine ement to Bertune the matter the wine ent to the Rights desire. Mississes of a Bedonius Arab.

The death of Lord Ellenborough, reported yeaterday by cable, brings to mind an epicode of his married life that at the time created great excitement among the aristocrational diplomatic circles of Europe. His wife was a very handsome, but, notytunately, about the correct in his habits, his progress in edurope. His wife was a very handsome honest and trustworthy. Studious and woman, but, unfortunately, about the orrect in his habits, his progress in edu-year 1840, was detected in an intrigue with Prince Swartzenburg, then an attache of the Austrian Embassy at London. The result was a trial—the details.

And so the boy reached his 17th wear. And so the boy reached his 17th wear. Form now had a vacancy at West don. The result was a trial—the details.

don. The result was a trial—the details Point in his gift, and he bestowed it upos of which reflected upon Lidy Ellenboth the child of his own friend. Young Sher of which reflected upon Lisdy Ellenborough—and a divorce. The mispided
woman at once seemed to drop out of exlistence. Many reports were circulated
for several years concerning her
—that she had become the wife of a
Continental inn-keeper, and committed
suicide, and various others, all of which
proved unfounded. Years after, it was
discovered that she had become the wife
for the phief of a tribe of Redouin A sign of the shed maintained a fair, though not
a first olves standing, to the close. Mr. of the chief of a tribe of Bidonin Arabe, Ewing desired that he should graduate in and had adopted the dress and nomadic the engineer corps. This, as he himselt the of those wild rovers of the desert—the children of Librard. She was a woman to do, but his rank was such as to entitle or considerable ability, and was treated with much consideration by the Bedonine, and has been several times tallar in much consideration.

with much consideration by the Bedonine, and has been several times talian in with by her countrymen, while traveling over the desert, many of whom were indebted to her for valuable aid, in protecting them from the hostilities of the various gangs of thering Arabs that infect the Nabian desert. The last record of her published, represented her as in command of quite a large band, chivalrously convoying several of her countrymen through a dangerous part of the desert, and fully equipped with gun and appear, like any Arab chief. MORTHLY STATISTICAL REVIEW of Cha

Proprietore.

In reply to an inquiry in the Boston the world, when he chooses to concentrate the world w "Authoricy of Bight over Wrong" per-sents, in a very forcible manner, and in this mimitable and peculiar style the right of suppressing distilleries and groghops.
I have a good deal of a certain sort of

are exulting from S'yglun moraages sa

the house; also, dish rage; he puts one of these in his pocket. He coases to be a rational or accountable being. An old male Californian cook, married and in his wife's kutchen, is not a well-spring of pleasure. pleasure.

He brings all the frying-pans he can find into use. He sets their sooty bottoms on the closu pine table. He contemplates making tos. He reflects as to the quantity be used in the muses for our midet;" and they resert to measures the complete making the contemplates making the reflects as to be say business to create a nuis-acc in our midet;" and they resert to measures the complete making the most complete making the complete makin claring it a nuisance; and it would be to which he offends. Let a man start pot. He will have enough, any way. mill for grinding aractic, and let the sit be filled with particles of the deadly night. Nervous. He essays to make bis-cuit. He wonders how much saleratus they used in mines to get a good size on. He uses enough. He kneed, his dough, and wandering vacantly about the house, and wandering vacantly about the house, leaves traces of flur at every step. It is in the parlor, on the door knobs, on the banisters. He can cook. He says he can cook be ten any woman in the world if he "we a only a mind to give his mind to it." This conceit is never to be taken ont of him. It is peculiar to all Californians; for he made bread in the mines. It was good bread, too—good to kill. They ont or him. It is promited to the mines. It was good bread, too—good to kill. They say "two pardners" who "osbuced" with him died of heavy-bread indigestion. He was given two hours to leave the camp, with the signs of approaching described with the signs of approaching the signs o newspapers lying about, which the folke wanted to read. He is using table butter to cook with, and sets the cooking butter on the table. Things fall into that dough —buttons, matches, and but of coal.

In the midst of all this culinary rior, you have no right to suffer to exist in mercy compared with liquor. And I say you have no right to suffer to exist in the community these great centers of pestilential influence that reck and fill

Trating Merosene Oil. From the Scientific American.

I obtained some kerosene which had been inspected by the Government inspector, and passed as standing the test of 110 deg. Fah. before throwing off vapor, or the flashing point, as commonly called; through with: 1, Carol; 2, Lesson from the New Testamen; 3, Carol; 4, Hymn, "Holy, Holy"; 5, Address by the Rector, Rev. Mr. Chevers. The speaker related the circumstances of the birth of the Savior, and dwelt upon his relations with children. He had inculcated the great reason of obedience to perents, and had set them an example in searching the scriptures.

SHAWL STRAPS, &C.

Address by Mr. M. H. Phillip, and them at the same of the strain of the serious same of the strain of the serious same of the same in a long test tube, be able to command, he is requested to give an obligation to repay, in one year, the without interest, three-fourths of the Savior, and dwelt upon his relations with children. He had inculcated the great reason of obedience to perents, and had set them an example in searching the scriptures.
